Plus 20 head of weaned ETs and top notch yearlings.

Saturday - October 7, 2017 - Noon  
Hereford Vet Clinic Facility, Hereford, Texas

#### SJH Consensus of 9360 2705 • 17473509

This powerhouse daughter of Consensus is a joint venture with Scharbauer Ranches and is considered by many great Angus enthusiasts as one of the best Consensus daughters in the breed today when you consider all traits combined with her powerful phenotype. Her donor dam is none other than the \$1.25 million production matron 9360 who is the most dominant daughter of Mile High ever to grace the breed. 2705 herself is the 22nd ranked \$Beef Consensus dam in the breed and has 19 progeny scanned that ratio 101 for Marbling and 100 for RE as well as ranks in the top 5% of current Angus dams for WW, YW, RADG, SW, SF and \$B. She sells open, ready to flush, plus selling a Discovery bred heifer and two Partner bred heifers.

266	.2%

This super attractive female who is the 5th highest \$Beef Prophet daughter in the breed had individual production ratios of 94 for birth, 110 for weaning, 113 for Yearling, 134 for IMF with a 9.55 IMF score and a 105 RE ratio. I dare to say with an 11 CED, 80 WW, +84.12 \$W and +189.29 \$B that 5337 is not only the best Prophet daughter in the breed, but one of the most unique Angus females in the breed. She also ranks in the top 1% of current non-parent females for WW, YW, CW, Marb, \$W, \$F, \$QG and \$B. This future donor matron will be ready to go to work after the sell and is due to calve 8/30/17 to Sunrise.

CED	BW	WW	YW	Milk	Marb	RE	\$W	\$F	\$G	\$B
+11	+2.2	+80	+135	+33	+1.45	+83	+84.12	+102.34	+52.37	+189.29

#### 2 Bar Discovery 6015 • 18425534

A son of Discovery out of a full sister to Partner back to the best daughter of Daybreak to grace the Angus breed, M721 who has now passed \$500,000 in progeny sales in her short donor stint before she died. This young man who is the 20th ranked son of Discovery in the breed had individual ratios of 107 for weaning and 113 for yearling as well as ranks in the top 1% of the entire non-parent Angus bulls in the breed for WW, YW, CW, Fat, \$W, \$F and \$B. This one is a long-spined bull with excellent feet and bone structure that will add pounds to your calf crop and still make high production females.

CED	BW	WW	YW	Milk	Marb	RE	\$W	\$F	\$G	\$B
+2	+3.4	+88	+158	+30	+64	+81	+84.07	+145.16	+43.08	+198.71

#### 2 Bar Discovery 6094 • 18425528

This bull was chosen by Steve to clean up the spring sale offering from 2 Bar and to be used on some of the donor and retaining females in the 2 Bar herd. He is a stud from a physical standpoint and may be one of the stoutest Discovery sons out there today. This easy going, easy doing rascal had individual ratios of 104 for birth, 103 for weaning, 109 for yearling, 129 for IMF and with a 15.2 inch RE ratioed 115 for RE. He ranks in the top 5% of current non-parent sires for YW, Marb, \$F, \$G and \$B and has an EPD profile that is as balanced as it gets.

CED	BW	WW	YW	Milk	Marb	RE	\$W	\$F	\$G	\$B
+9	+1.2	+64	+121	+25	+1.31	+71	+65.97	+91.45	+60.66	+163.70
